# DIRECTORS' REPORT

For the half-year ended 31 December 2020

The Directors of Blue Energy Limited and its controlled entities ("the Company" or "Blue Energy") submit herewith their report on the financial statements of the Company for the half-year ended 31 December 2020.

## DIRECTORS

The names of the Directors who held office during or since the end of the half-year and to the date of this report:

John Ellice-Flint (Chairman)	(Appointed 5 April 2012)
John Phillips	(Appointed 28 June 2010)
Mark Hayward	(Appointed 16 February 2021)
Rodney Cameron	(Appointed 15 November 2011)
Karen Johnson	(Resigned 10 November 2020)

## REVIEW OF OPERATIONS

Blue Energy is subject to continuous disclosure rules, and as such, anything materially affecting the Company and its exploration assets in the preceding 6 month period has been disclosed to the market.

### Reserve and Resource Position

There has been no material change to the Group's Reserve or Resource position in the last 6 month period to 31 December 2020. Blue Energy's Bowen Basin 2P and 3P Reserves are estimated (by the independent consultancy Netherland, Sewell and Associates, Inc of Dallas Texas (NSAI)) to be 71 PJ and 298 PJ respectively. Blue Energy's current 3C Contingent Resource estimate is 4,179 PJ of technically recoverable gas, whilst the 1C and 2C Contingent Resource estimates are 158 PJ and 1,166 PJ respectively. The Gas Reserves remain confined to ATP814P in the North Bowen Basin, whilst the Contingent Resources are established by NSAI in Blue's ATP814P, ATP813P and ATP854P tenements. The current Reserve and Resource estimate by NSAI with no variations from prior year is tabled below (Table 1).

These reserves are not yet developed, and there has been no production of gas by Blue Energy Ltd to deplete the reserves. All reserves and resources stated in the table are in respect of unconventional gas (Coal Seam Gas) and are undeveloped reserves and net to Blue Energy.

These reserves remain undeveloped due to local market conditions and limited pipeline infrastructure within the North Bowen Basin region. It is the Group's intention to develop these reserves by facilitating appropriate commercial transactions to enable the provision of appropriate infrastructure. To this end Blue Energy has entered into a non binding Heads of Agreement (HoA) to supply 100 PJ of gas over 10 years to EnergyAustralia at Wallumbilla. Blue continues to negotiate with other gas users to build the contracted volume and facilitate development of its North Bowen Basin gas resources. The reserves being ear-marked in this agreement are proximate to existing production but require appropriate infrastructure and commercial arrangements to be put in place for them to be brought to market.

The Group's entire reserve and resource position is independently reviewed and certified by NSAI, an independent reserve certifier, and reported by the Group directly should there be a change, as required under ASX Listing Rules for continuous disclosure. The Group continues to work with NSAI on providing any updates on the reserve and resources position.

**Table 1: Blue Energy Ltd's Reserve and Resource Inventory**

Permit	Block	Assessment Date	Announcement Date	Methodology	Certifier	1P (PJ)	1C (PJ)	2P (PJ)	2C (PJ)	3P (PJ)	3C (PJ)
ATP854P		30/06/2012	19/03/2013	SPE/PRMS	NSAI	0	22	0	47	0	101

ATP814P	South	30/06/2013	29/07/2013	SPE/PRMS	NSAI	0	15	0	27	6	30
<b>Total (PJ)</b>						<b>0</b>	<b>158</b>	<b>71</b>	<b>1,166</b>	<b>298</b>	<b>4,179</b>
<b>Total MMBOE</b>						<b>0</b>	<b>27</b>	<b>12</b>	<b>191.9</b>	<b>51.2</b>	<b>718.5</b>

All numbers are net to Blue Energy

# DIRECTORS' REPORT

For the half-year ended 31 December 2020

## Competent Person Statement

The estimates of reserves and contingent resources have been provided by Mr John Hattner of Netherland, Sewell and Associates Inc (NSAI). Mr Hattner is a full-time employee of NSAI, has over 30 years of industry experience and 20 years of experience in reserve estimation, is a licensed geologist, and has consented to the use of the information presented herein. The estimates in the report by Mr Hattner have been prepared in accordance with the definitions and guidelines set forth in the 2007 Petroleum and Resource Management System (PRMS) approved by the Society of Petroleum Engineers (SPE), utilising a deterministic methodology.

## Bowen Basin

### ATP814P (Blue Energy 100% and Operator)

The Federal Governments' National COVID Construction Commission has recommended that as part of the Prime Minister's gas lead recovery targeting new and reliable gas supply for east coast manufacturers, the north Bowen Basin (in addition to the Beetaloo and Galilee Basins) is prioritised for infrastructure to fast track new gas supply into the east coast grid. ATP 814 is within the North Bowen Basin and would benefit from Federal government support for accelerated gas infrastructure connection to the east coast gas grid.

This high-grading of government support for the basin assists Blue in its commercialising activities to establish foundation domestic east coast gas offtakers, as well as local Townsville customers. Accordingly, Blue has successfully executed the first of several planned long-term gas supply agreements with major offtakers. Blue and EnergyAustralia have signed a non-binding Heads of Agreement for the supply of 100 PJ of gas over 10 years. The gas is to be delivered to the Wallumbilla hub.

Blue's 100% ATP814 currently has 71 PJ of 2P reserves, 298 PJ of 3P reserves and 3,248 PJ of Contingent Resources (as independently estimated by Netherland, Sewell and Associates Inc (NSAI)). The permit consists of 7 separate blocks, with the Sapphire Block holding the majority of the 2P and 3P reserves. This Block is in very close proximity to the current production from the Moranbah Gas Project Joint Venture.

With respect to the local Townsville market, and as previously advised, Blue Energy executed two non binding Memorandums of Understanding (MoU) as follows:

- 1) MoU with North Queensland Gas Pipelines Pty Ltd to work together to establish new gas offtakers in the Townsville market.
- 2) MoU with Queensland Pacific Metals (QPM) to work to execute a binding Gas Sales Agreement for the delivery of gas from Blue Energy's ATP814 tenement to QPM for their proposed Townsville Nickel processing facility.

As part of addressing commerciality of a portion of the Company's Bowen Basin gas resource, Blue is also investigating the viability of gas fired electricity generation in ATP814P and in particular the Hillalong and Monslatt Blocks, located near the towns of Glenden and Nebo respectively. Both these blocks are within 10 kilometres of the major 275Kv transmission line linking Gladstone and Townsville. Investigations conducted by a third party engineering house have suggested electricity generation in these two blocks will be economic using certain base assumptions for offtake electricity price, generation and connection costs.

In pursuit of commercialisation of the gas held in Blue's ATP814P blocks, the Company is in ongoing discussions with several key large east coast gas buyers who are interested in securing long term gas supply at the Wallumbilla hub.

The 3 separate Production Licence Applications (PLA's) lodged previously are still under consideration by the Regulator, whilst 3 of the 4 Potential Commercial Area Applications have been awarded by the Regulator.

## Galilee Basin

### ATP813P Blue Energy (100% and Operator)

ATP813P is located to the north of the Aramac township in central west Queensland. Blue Energy's exploration work on the permit to date has resulted in 830 PJ of Contingent Resource being estimated by independent reserve specialist NSAI. Blue lodged 9 separate Potential Commercial Area Applications in 2017, and as at 31 December 2020, were still being considered by the Queensland Government for grant.

## Greater McArthur Basin, Northern Territory

### EP199A, 200, 205, 206A, 207, 208A, 209A, 210A, 211A (Blue Energy Ltd farming in and Operator)

Following the lifting on the moratorium on gas exploration activities, the Northern Territory (NT) Government has introduced many new amendments to the Petroleum, Water and Environment Acts as a result of the 135 Pepper Inquiry recommendations deemed necessary to regulate the industry to ensure it operated safely. These regulatory amendments have lengthened the approval process for all oil and gas exploration activities in the Territory. These longer approval timeframes continue to have impacts on approval of field activity in the already seasonally restricted exploration season in the NT.

## **DIRECTORS' REPORT**

**For the half-year ended 31 December 2020**

Blue Energy's granted permits had been under suspension (at Blue's request) as a result of the Post Pepper regulatory uncertainty. With the outbreak of COVID 19 in the Territory and the imposition of travel and access restrictions to remote communities, the required access to remote communities by government bodies for consultation and cultural heritage clearance of proposed seismic survey activities was severely impacted. Accordingly, Blue has only recently been granted approval for its seismic activities to be conducted. Blue is still required to obtain social and community licence for this survey work. Accordingly, and given the restricted exploration season, Blue applied for and has been granted a further suspension or work commitments until February 2022. The permit timeframes have also been extended by 12 months. Blue has also resumed engagement with the Central and Northern Land councils to undertake on country meetings with traditional owner groups for the areas currently under application.

### **Cooper Basin**

#### **ATP 656, 657, 658, & 660 Cooper Basin Queensland (Blue Energy 100% - and Operator)**

The Cooper Basin area, in particular the Cooper Creek Riverine system, has been subject to sustained environmental restrictions and legislative uncertainty. Subsequent to the Queensland election and the return of the Palacuzck Government, environmental activism continues in an attempt to limit exploration and production activities from occurring in the Cooper Basin. As previously advised Blue entered into an agreement with an Australian energy company, whereby Blue would be reimbursed for its post-grant nominal back costs. This agreement is subject to, and conditional upon approval by the Queensland Government and the grant of 9 Production Licences (PL's) applied for by Blue Energy. These PL applications were lodged by Blue Energy and identified Origin Energy as the Australian Energy company and as the Titleholder of the subsequently awarded PL's. These Production Licences are deemed to be a Right conferred on ATP exploration tenement holders issued under the Petroleum Act 1923.

### **Georgina Basin and Carpentaria Basins Application Areas**

#### **ATP 1112, 1114, 1117, 1123 A (Blue Energy 100% and Operator)**

Blue Energy continues to seek resolution of the long running Native Title negotiations that are required to facilitate grant of these areas.

## **CORPORATE**

### **Financial Position**

The net assets of the Company have decreased by \$0.49M from 30 June 2020 to 31 December 2020 to \$62.2M. This is due to budgeted exploration activity over the period and routine corporate and administrative costs.

The Company posted a loss after income tax for the period of \$0.49M (31 December 2019: \$4.6M). Cash expenditure on exploration and evaluation for the period was \$0.57M (31 December 2019: \$0.43M).

### **Funding Arrangements**

The Company continues to hold sufficient cash reserves to enable continued operations. Future capital raising activities will take place if and when the Board deem that such a raising of funds is appropriate. The Directors are mindful of the Group's full exploration expenditure commitments for its various tenements, and as such potential funding options will be considered by the Group to fund these programs. Work programs are subject to change and are at times under negotiation with the regulator.

### **Share & Option Issues**

No Employee Incentive performance rights were granted during the period under the current Employee Incentive Rights Plan (2019: Nil).

## **SUBSEQUENT EVENTS**

Subsequent to 31 December 2020, there have not been any other matters or circumstances, other than that referred to above and in the financial statements or notes thereto, that has arisen since the end of the half-year, that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial periods.

**DIRECTORS' REPORT**  
**For the half-year ended 31 December 2020**

**AUDITOR'S DECLARATION**

The auditor's independence declaration under section 307C of the Corporations Act 2001, for the half-year ended 31 December 2020, is set out on page 5.

This report is signed in accordance with a resolution of the Board of Directors.

John Ellice-Flint  
Chairman

Dated this 10<sup>th</sup> day of March 2021  
Brisbane, Queensland

The Directors  
Blue Energy Limited  
Level 10, 26 Wharf Street  
Brisbane, QLD 4000

### **Auditor's Independence Declaration**

In relation to the independent auditor's review for the half-year ended 31 December 2020, to the best of my knowledge and belief there have been:

- (i) no contraventions of the auditor independence requirements of the *Corporations Act 2001*; and
- (ii) no contraventions of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)*.

This declaration is in respect of Blue Energy Limited and the entities it controlled during the period.

## NOTES TO THE FINANCIAL STATEMENTS

For the half-year ended 31 December 2020

### 1. BASIS OF PREPARATION

The half-year consolidated financial report is a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standards AASB 134: Interim Financial Reporting.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2020 and any public announcements made by the Company and its controlled entities, during the half-year, in accordance with the continuous disclosure requirements arising under the Corporations Act 2001.

The Company and its controlled entities is of a kind referred to in Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/91, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the Directors' Report and Financial Report. Amounts are rounded off to the nearest thousand dollars.

The half-year report does not include full disclosures of the type normally included in annual condensed financial statements.

The half-year consolidated financial report was authorised for issue by the Board of Directors on 10 March 2021.

#### *Reporting Basis and Conventions*

The interim financial report has been prepared on an accruals basis and is based on historical cost modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

#### *New standards, interpretations and amendments thereof, adopted by Blue Energy*

The accounting policies adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the financial report for the financial year ended 30 June 2020.

#### *Going concern*

As the Group's assets are in the exploration and evaluation phase, Blue Energy Limited is currently non-revenue generating. As such, a major focus of the Board and management is on ongoing cash flow forecasting and management of cash flows to ensure that the Group has sufficient funds to cover its planned activities and any ongoing obligations.

At 31 December 2020, the Company had \$3.3M in cash and cash equivalents, which includes \$324k of restricted cash. The Board is satisfied that the Group will successfully meet its minimum expenditure commitment (including through negotiating deferral of minimum expenditure commitments until access and activity approvals are received).

Furthermore, it is recognised that the Group's cash and cash equivalents at 31 December 2020 are not sufficient for it to meet its full exploration expenditure commitments for its various tenements over the full terms of all its exploration tenures or facilitate an expanded exploration program should the Group elect to do so. In addition, the Group's ability to realise the carrying amount of its capitalised exploration and evaluation expenditure asset in the ordinary course of business, is contingent on it maintaining tenure for various areas of interest and being able to access tenements to be able to advance exploration and evaluation efforts.

This being the case, the Group is:

- Managing all tenures, and their respective work programs to ensure all renewals and/or grant of higher tenure types (PLAs and PCAs) are completed; and
- Considering all funding options including capital raising and the establishment of Joint Venture partnerships.

On the basis of the above, the Directors are of the opinion the Group will be able to meet its debts as and when they fall due and realise its assets and settle its liabilities in the ordinary course of business. Should the Directors not be able to manage these inherent uncertainties and successfully secure funding, there would be significant uncertainty as to whether the Group would be able to meet its debts as and when they fall due and therefore continue as a going concern. Accordingly, the financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities may be necessary should the Group be unsuccessful in renegotiating or deferring its exploration expenditure commitments, attracting joint venture partners for the Group's exploration expenditure commitments and/or raising additional capital.

## NOTES TO THE FINANCIAL STATEMENTS

For the half-year ended 31 December 2020

### 2. INCOME

	31 Dec 2020	31 Dec 2019
	\$'000	\$'000
<b>Financial income</b>		
Interest received	14	48
	14	48
<b>Other income</b>		
Other income (Government COVID19 cash bonus)	25	-
	25	-
Total Revenue	39	48

### 3. PROFIT/(LOSS) FOR THE HALF YEAR

	31 Dec 2020	31 Dec 2019
	\$'000	\$'000
<b>(a) Operating and administration expenses include</b>		
Employee benefit expenses	152	117
Superannuation	32	23
Depreciation and amortisation expense	26	30
Directors' fees	60	67
Net foreign exchange gain	2	-
<b>(b) Exploration and evaluation expenditure asset impairment/write off</b>		
Adjustment to provisions for impairment of exploration asset	-	4,074

### 4. EXPLORATION AND EVALUATION EXPENDITURE

	31 Dec 2020	30 June 2020
	\$'000	\$'000
Exploration and evaluation expenditure acquired and recognised on consolidation	13,648	13,648
Other exploration and evaluation expenditure	76,541	75,838
Restoration asset	749	748
Impairment and write off of exploration and evaluation expenditure asset	(30,868)	(30,868)
Total exploration and evaluation expenditure brought to account	60,070	59,366

During FY2020, the Cooper blocks ATPs 656,657,658 and 660 were fully impaired (\$4.07m) following the Board's decision to review the merits of withdrawing the application to renew the ATPs due to the environmental regulatory uncertainty and future access restrictions relating to proposed Pristine rivers on the Blocks. Notwithstanding the impairment, the Group is attempting to recuperate some nominal back costs through a transaction with an Australian Energy Company.

## NOTES TO THE FINANCIAL STATEMENTS

For the half-year ended 31 December 2020

### 5. ISSUED CAPITAL

	31 Dec 2020		30 June 2020	
	Shares	\$'000	Shares	\$'000
<b>Ordinary shares:</b>				
Issued and fully paid	1,328,882,513	139,997	1,328,882,513	139,997
<b>Movements in ordinary shares on issue:</b>				
Opening balance	1,328,882,513	139,997	1,295,397,290	138,517
Issued shares at 4.5c/share (share purchase plan)	-	-	31,555,465	1,420
Issued shares on exercise of rights	-	-	1,929,758	91
Capital raising costs	-	-	-	(31)
<b>Closing balance</b>	<b>1,328,882,513</b>	<b>139,997</b>	<b>1,328,882,513</b>	<b>139,997</b>

### 6. SEGMENT INFORMATION

The Company operates in a single operating segment, being the oil and gas exploration industry. The Company's activity is carried out in a single geographical segment, being Australia.

### 7. CONTINGENT LIABILITIES

The Directors are not aware of any contingent liabilities or contingent assets at 31 December 2020, which are not otherwise disclosed in this report.

### 8. SUBSEQUENT EVENTS

Subsequent to 31 December 2020, there have not been any other matters or circumstances, other than that referred to above and in the financial statements or notes thereto, that has arisen since the end of the half-year, that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial periods.

### 9. DIVIDEND PAID OR PROVIDED FOR ON ORDINARY SHARES

There was no dividend paid or provided for at the reporting date (31 December 2019: \$nil).

### 10. CASH AND CASH EQUIVALENTS

Included in cash and cash equivalents are deposits secured against bank guarantees totaling \$324k utilised balance relating to financial assurances for ATPs.

### 11. FINANCIAL INSTRUMENTS

The financial assets and liabilities consist of trade and other receivables and trade and other payables. The financial assets and liabilities are carried at amortised cost, the carrying value is assumed to approximate their fair value.

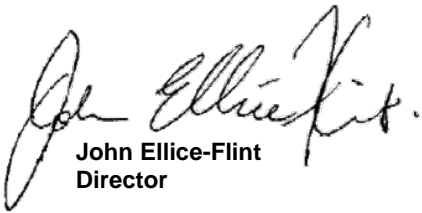

## DIRECTORS' DECLARATION

### DIRECTORS' DECLARATION

The directors of the Company declare that:

- (1) The financial statements and notes, as set out on pages 6 to 12, are in accordance with the Corporations Act 2001;
  - (a) comply with Accounting Standards and
  - (b) give a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the half-year ended on that date.
- (2) In the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

**John Ellice-Flint**  
**Director**

Dated 10 March 2021

## Independent Auditor's Review Report to the Members of Blue Energy Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Blue Energy Limited, the 'Company' and its controlled entities "the Group", which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Blue Energy Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Blue Energy Limited's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

#### Material Uncertainty Related to Going Concern

We draw attention to note 1 in the financial report which describes the principal conditions that raise doubt about the ability of the Group to continue as a going concern. These events or conditions indicate a material uncertainty exists that may cast significant doubt on the ability of the Group to continue as a going concern. Our opinion is not modified in respect to this matter.

### Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
